## About Us

Founded on 6 February 2008, PT. Trasfello Bangun Teknika was established by experts in HVAC systems with a strong commitment to delivering the best service to customers—both in terms of selected material quality and reliable after-sales support.

Today, Trasfello stands as one of the leading **Mechanical, and Electrical (ME) Contractors**, with strong specialization in **HVAC, Instrument, and Control Systems**. With extensive experience in these fields, we provide comprehensive solutions that set us apart from others through timely, unique, and complete services.

Our scope of services covers **Design, Engineering, Construction, and Maintenance/After-Sales Service**, ensuring that every project is delivered on schedule and executed with precision.

At Trasfello, we are more than just a contractor—we are your trusted partner in delivering reliable and innovative engineering solutions in **HVAC, Instrument, and Control systems**.

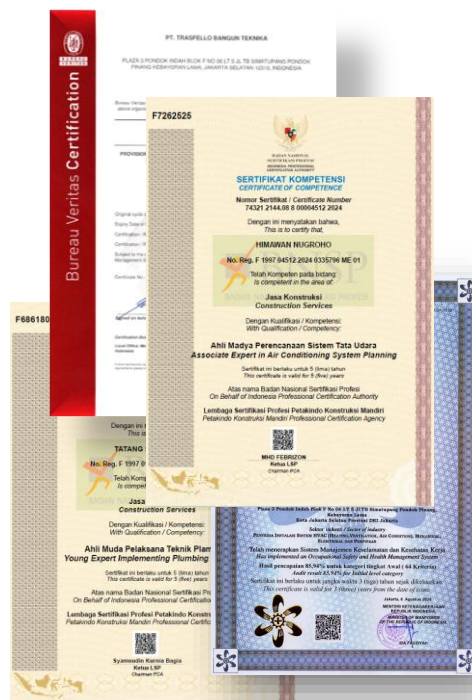

## Certification

In May 2015, Trasfello has been certificated for ISO 9001:2008 and OSHAS 18001:2007 from TUV SUD.

In May 2024, we updated our ISO system with ISO 9001:2015 and received certification from Bureau Veritas.

In August 2024, we received certification SMK3 from Ministry of Manpower.

Our team consists of highly qualified and certified professionals with expertise in Mechanical Engineering, Plumbing and Pump Systems, and specialized competencies in Air Conditioning System Design.

## What We Can Do

We deliver comprehensive solutions in HVAC and related disciplines, including Electrical, Instrumentation, Mechanical, and Civil works.

Our expertise covers the full project lifecycle—spanning Engineering Design, Procurement, Construction, and Service & Maintenance—ensuring quality, reliability, and timely execution.
